

REGISTERED NURSING

Our Registered Nurses provide care in your own home to assist you to maintain your general health and well-being. Our nurses are highly trained professionals who are dedicated to providing quality care. They have the skills and expertise needed to help manage your health and maintain independence in the comfort of your own home.

WHEN SHOULD YOU SEE A REGISTERED NURSE?

- ✓ A new wound or a chronic long term wound
- ✓ A history of high blood pressure, diabetes, strokes
- ✓ Incontinence issues - existing or changes
- ✓ Poor circulation
- ✓ Difficulty with speech or swallowing
- ✓ Experience unintentional weight loss or gain
- ✓ Changes in sleep patterns

A REGISTERED NURSE CAN...

- Provide direct care by assessing, referring, and treating patients.
- They can administer medications, care for wounds, and monitor vital signs.
- Serve as advocates, educating patients about healthcare options and coordinating care with other professionals.
